[Dvd Video Software For Mac](#)

The screenshot displays the Xilisoft DVD Creator application window. The main interface is divided into several sections:

- Title List:** A table listing video files with columns for Title, Resolution, Zoom, Duration, and Location. The selected file is "Speed_108..." with a resolution of 1440 x 1080 and a duration of 0:02:07.
- DVD Settings:** A panel on the right showing options for Video Quality (Normal), TV Standard (NTSC/PAL), and Aspect Ratio (16:9/4:3).
- Preview:** A window at the bottom right showing a video preview of a sailboat on a lake.
- Destination and Writing:** A section at the bottom left showing the destination drive (PIONEER DVD-RW DVRTS09), volume label (My DVD), and writing speed (Maximum).
- Status Bar:** A progress bar at the bottom showing the total size of the files (4.95GB) and the selected file's size (128.49 MB).

Title	Resolution	Zoom	Duration	Location
[HDTV] (2006.09.2...)	1440 x 1080	Letterbox	0:02:44	video
dream.mpg	1440 x 1080	Letterbox	0:32:05	video
